

McCormick Parent Buddy Program for New Families

The PTO invites you to participate in our new Parent Buddy Program. Over 30 McCormick volunteers with students from 2nd-6th grade have committed to welcoming our newest families to McCormick. Parents with children in Kindergarten, 1st grade, or any family new to the district will be partnered with a school veteran 'buddy' to answer questions, offer insights or direction.

We remember sending our children to school for the first time. How do they make it from the bus to the classroom? What will their day look like once they've arrived? When can I help in the classroom? How does the school communicate to parents? We've all been there and had similar questions: our goal is to make this period of transition a little easier.

If you would like to participate, complete this form and return it to school with your student by **Friday, September 4th**. Parents will be paired up and notified by the end of September.
